

CLASSIC On/Off Valve Systems – overview

**Angle-seat valve
On/Off CLASSIC
system
Type 8801-YA**

**Globe valve
On/Off CLASSIC
system
Type 8801-GA**

**Diaphragm valve
On/Off CLASSIC
system
Type 8801-DB**

**T valve
On/Off CLASSIC
system
Type 8801-TA**

**Tank bottom valve
On/Off CLASSIC
system
Type 8801-DG**

The design of the System Type 8801 On/Off CLASSIC enables the easy integration of automation modules whether they are electrical/optical position feedback, pneumatic control units, an optional integrated fieldbus interface or even an explosion proof control head.

The fully integrated system with valve and automation system has a compact and smooth design and IP65/67/NEMA4X protection class.

Ordering information for valve system On/Off CLASSIC Type 8801-YA

A valve system On/Off CLASSIC Type 8801-YA consists of an angle-seat valve Type 2000 and a valve actuation system control head Type 8691, a pneumatic control unit Type 8690 or feedback Type 8697 (see separate datasheets).

You order two components and receive a complete assembled and certified valve.

Click on the orange box "More info." below... you will come to our website for the resp. product where you can download the datasheet.

For the configuration of further valve systems please use the "Request for quotation" in the datasheet 2000_8801-YA, welded, threaded or clamp version

Ordering information for valve system On/Off CLASSIC Type 8801-GA-GA

A valve system On/Off CLASSIC Type 8801-GA consists of an globe valve **Type 2012** and a valve actuation system control head **Type 8691**, a pneumatic control unit **Type 8690** or feedback **Type 8697** (see separate datasheets).

You order two components and receive a complete assembled and certified valve.

Click on the orange box "More info." below... you will come to our website for the resp. product where you can download the datasheet.

Ordering information for valve system On/Off CLASSIC Type 8801-DB

A valve system On/Off CLASSIC Type 8801-DB/8803-DB consists of a diaphragm valve **Type 2031** and a valve actuation system control head **Type 8691**, a pneumatic control unit **Type 8690** or feedback **Type 8697** (see separate datasheets).

You order two components and receive a complete assembled and certified valve.

Click on the orange box "More info." below... you will come to our website for the resp. product where you can download the datasheet.
